Dear Mr. Fregoso,

It must really be tough being in your position. I don't envy you.

And I apologize if I may have come across as unthankful for your efforts in any way,

I fully respect your diligence in this very pressing matter.

But we're losing our patience.

We're very frustrated.

We're very worried.

I'm sorry to say that we (the families and homeowners in our neighborhood) have a very difficult time believing that Mitch O'Farrell, the City Council, Mayor Garcetti, and

City Attorney Mike Feuer are actually representing us effectively against the current policies of lawlessness and the degradation of our City.

Mr. O'Farrell's folding on the "Mitchell case" March 6th, 2019 is quite telling.

Why is he not advocating fighting this disastrous settlement that makes Los Angeles complicit with blight, squalor, and crime???

The City's duty to maintain order, cleanliness, and safety has not been abolished by any ruling.

We feel deserted by the very people we're paying an incredibly huge tax burden to.

We should not have to plead to have functional services to maintain cleanliness, order and peace in our neighborhood.

The term "Homeless" is not a valid concept anymore and is not going to be eliciting sympathy when these criminals are attacking us, stealing from us, breaking into our cars,

and souring our quality of life so blatantly - with complete impunity. There's no consequence or justice whatsoever, and they know it.

A contractor patient today related about a job-site in which vagrants were recently caught stealing tools and were stopped by the workers.

Police were called but refused to cite or arrest them. The police told the workers "It's your word against there's."

All jaws ■■■■opped at the job-site. What has happened to law enforcement in our City???

These people frighten us and our children.

They're emboldened by policies which validate their vagrancy, filth and criminality.

They're violent and dangerous.

They're spreading diseases such as Typhus and Scabies. This is completely intolerable.

If Mitch O'Farrell understands that his political future hinges on his ability to get his constituents to see and believe that he really is representing our interests (safe, clean neighborhoods)

then perhaps he has a chance to elevate his stature. His effective action is expected of us and his clear communication on this matter is essential.

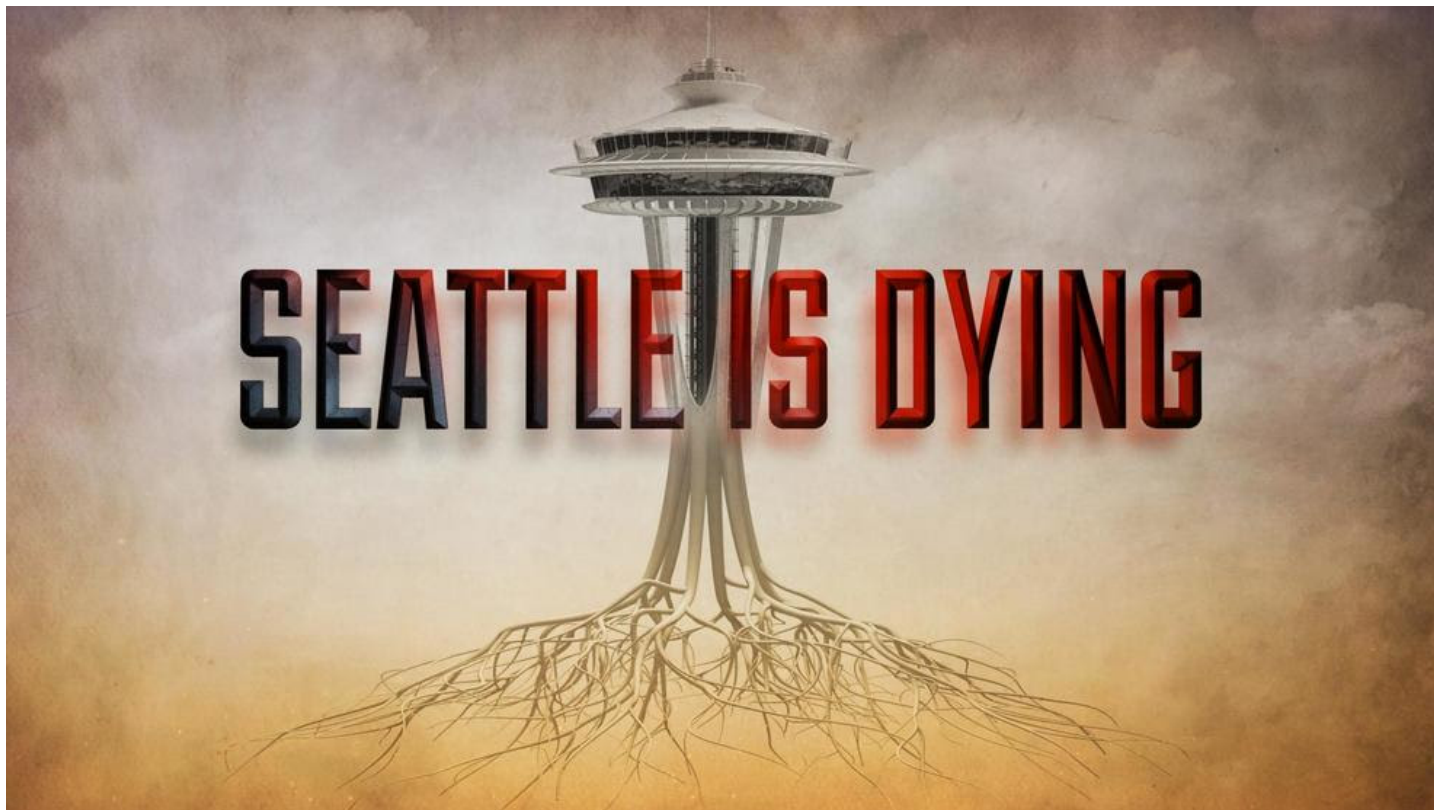

If you have a chance, please view the following YouTube video about Seattle which has a lot of similarities to our beloved Los Angeles. "Seattle Is Dying."

Your constituent,

Privacy

P.S. This was written yesterday but edited in the middle of the night to reduce it's harshness.
